Welcome!

Skaters, Parents and Coaches,

Vacaville Ice Sports is proud to host Solano Spring Showcase, a competition with a curtain and recalls. We are excited to see all the spotlight programs you have put together. It is sure to be a great show!

Volunteers

Vacaville Ice Sports and the entire figure skating community rely heavily on volunteers to help provide skaters in our community with a high-quality skating experience. Each year, hundreds of parents, coaches and even skaters volunteer time to enhance skaters' experiences at competitions, shows and more. Keep a lookout for the volunteer sign-up link that will be emailed out prior to the competition.

Time commitment

Volunteers are scheduled in 1-hour shifts, and you can volunteer for as many as you prefer! Please consider volunteering for at least one shift as your assistance greatly impacts the experience each skater has.

Will I receive any volunteer training?

Being a volunteer at an ice-skating competition or event is incredibly easy, but we understand that it can be intimidating without proper information and training. Because of that we will be sure to have documents laid out, explaining the steps to accomplish the job. You can also ask the Skating Director or any coach or employee of Vacaville Ice.

THANK YOU!

Artistic Skating

This event is open to Freestyle skaters only. There are no required maneuvers in Artistic Skating, but there are maneuver limitations. Emphasis is on the creative and innovative design of the skating program. Strong edges, body positions, flow, music interpretation, rhythm, choreography and artistry should be the main focus of an Artistic program. There is no grade for technical merit. Props are NOT permitted in this event category.

FS 8-10 / Platinum	Any Maneuvers	2:00

Interpretive

The emphasis of this event category is on the skater's ability to make-up an original program routine while matching the choreography to the chosen music. This is a fun event to showcase the skater's ability to interpret music and to think while skating. There is no credit given for the difficulty of the maneuvers performed. Skaters are not allowed to receive communication from instructors, parents, friends, skaters, or anyone else during this event. Skaters will listen to the music 4 times; twice off the ice and twice on the ice. Details about where to meet and what time will be at the registration desk.

Spotlight Light Entertainment

To entertain in a refreshing, lighthearted vaudeville type fashion using music, costumes, props, comedy, dance and skating moves.

Spotlight Dramatic

An artistic theatrical performance by an individual skater that evokes an emotional response from the judges and the audience. The skater's interpretation should create a mood that is enhanced by style, creativity, costume and props. The overall impression is dramatic, not lighthearted as in the light entertainment category.

Spotlight Character

Individual skaters portray a famous, easily identifiable character, using music, costume, props and actions.

Couples Spotlight

Two skaters (either related or not) perform a routine together that is entertaining, emotional or a portrayal of characters using music, costumes and props (optional). One program can only be entered into one category (you cannot use the same program for multiple categories). The couples spotlight level is based on the highest ISI test passed by either skater.

Family Spotlight

This event is open to 2 or more family members only (of any age and skating level). Routines may be fun, entertaining, emotional or portrayals of characters using music, costumes and props. Skaters will be judged on the entertainment and performance value of the program. Elaborate costumes and props are encouraged to help illustrate the act; however, not every number needs a prop for effectiveness or to complete the mood. All routines are limited to 1:30 duration.

Rhythmic Skating

Rhythmic Skating events are open to all freestyle level skaters. It requires the use of one handheld prop: ball, hoop or ribbon. The program should contain elements that employ the use of the prop throughout the routine. The skater must always maintain control of the prop. If two rhythmic events are entered at the same competition, the skater must use two different programs and different props. The same rule and choreography limitations apply as for spotlight events. **Props are not allowed in the warm-up.**
